Reply to Attn of: ED01

TO: DA01/Director
THRU: IS20/MSFC Directives Manager

FROM: ED01/Engineering Directorate

SUBJECT: Cancellation of MPR 1280.7, "Servicing"

In accordance with MPR 1410.2, 2.1.5, "Marshall Directives System," ED01 requests approval for cancellation of MPR 1280.7, "Servicing."

This directive was originally established to implement the AS9100 requirements for post-delivery support (referred to as "servicing" at that time). These requirements are now adequately covered by the existing project management, systems engineering, and quality assurance requirements in MPR 7120.1, "MSFC Engineering and Program/Project Management Requirements" effective December 20, 2012, MPR 7123.1, "MSFC Systems Engineering Processes and Requirements" effective December 12, 2012, and NPD 8730.5, "NASA Quality Assurance Program Policy" effective October 27, 2005. Therefore, the specific requirements in MPR 1280.7 are no longer necessary and this request is submitted to cancel the directive since it is no longer needed.
